Nota bene

In January 2015, Lithuania joined the euro area, bringing the number of euro area countries to 19.

Unless otherwise indicated, all data series included observations for 2015 relate to the “Euro 19” (i.e. the euro area including Lithuania) for the whole time series. For interest rates, monetary statistics and the HICP, euro area statistical series take into account the changing composition of the euro area.

Statistical data are updated monthly on the Banque de France’s website.

a) These statistics are transmitted to the European Central Bank, on the 15th working day following the end of the month to which they relate, within the production of the consolidated balance sheet of the monetary financial institutions (Regulation ECB/2013/33).

b) This item includes the outstanding amounts of market operations.

c) Including the adjustment linked to the method of accounting used for measuring the euro notes on the liability side of the balance sheet of the Banque de France since January 2002.

d) Since January 2002, banknotes in circulation are treated according to specific euro area accounting conventions to bring them in line with the capital key share. 8% of the total value of euro banknotes in circulation is allocated to the European Central Bank. The remaining 92% is broken down between the NCBs in proportion to their share in the paid-up capital of the ECB.

e) Coins in circulation are not a liability of MFIs in the participating Member States, but a liability of the central government. However, coins are part of the monetary aggregates and, by convention, this liability is to be entered under the category 'currency in circulation'. The counterpart to this liability is to be included within 'remaining assets'. (Regulation ECB/2013/33.)

f) The total of the balance sheet at end 2014 published in March 2015 (577.7 bn) can be calculated by subtracting from the total of the Monthly Statement at end December 2014 (582.6 bn): coins (3.1 bn) and miscellaneous amounts linked to the accounting gap between the statement established in the early January 2015 and the Annual Accounts, which include all the year-end entries (1.8 bn).
