

## Loans by size of firms – July 2021

### Credit growth keeps on

- At the end of July 2021, loans mobilized by companies reached 1214.9 billion euros, up + 3.1% over one year, after an increase of + 4.2% at the end of June. Over two years, the growth rate was 15.4% compared to July 2019.
- The year-on-year growth in credit to large companies and ISEs continues to shrink: for LEs -4.9% in July 2021 against -4.3% in June 2021 and for ISEs - 2.1% in July 2021 against -1.0% in June 2021. This movement corresponds to the evolution of credit after the outbreak of the COVID crisis, knowing that ISEs and LEs had heavily drawn on their credit lines from March 2020. For SMEs, the base effect appears (+ 6.8% in July 2021 compared to + 8.5% in June 2021), outstanding bank loans having increased significantly, especially from April 2020, fueled by the dissemination of government guaranteed loans (PGE). Over two years, credit growth rates remain higher at 2.9% for LEs, 6.9% for ISEs and 24.8% for SMEs.
- The growth of credit is especially driven by the information and communication (+ 12.4 %), the accommodation and food service activities (+ 7.6 %). The weakest growth is reported in wholesale and retail trade (- 3.7 %) and the transportation and storage activities (- 2.3 %).
- The rate on new loans up to EUR 1 million increases by 4 basis points to 1.35 % (up from 1.31 % in June). The rate on new loans of more than EUR 1 million, more erratic, reaches 1.49 % (up from 1.26 % in June) near, while above, levels observed in April 2021.

### Outstanding amounts of loans to resident enterprises by size (\*)

(Outstanding amounts in EUR Bn, annual growth rate in %)

	Number of enterprises (**)	Outstanding amounts	Drawn credits			
			growth rate			
			July 21	July 21	July 21 / July 20	June 21 / June 20
SME	1,312,518	531.7	6.8	8.5	24.8	25.0
ISE	6,384	315.2	-2.1	-1.0	6.9	8.5

### Additional Information

The outstanding amounts of credit in this publication are those collected by the central credit register, i.e. of a unit amount of more than 25,000 euros. These outstanding amounts include drawn credits, which means those actually used, and the undrawn credits, unused lines of credit. Individual data are grouped according to the size (larges firms, intermediate-sized enterprise - ISE and small and medium-sized enterprise - SME) and the sector of businesses. Businesses that cannot be assigned in a size category according to the criteria of the LME (Loi de Modernisation de l'économie) are included in the category "non-trading real estate companies and others".

Additional data on SMEs, interest rates by size of enterprises, and share of less than 3 year old enterprises (excl. sole proprietors) in the total of enterprises, are available at the following address: <http://webstat.banque-france.fr/fr/browse.do?node=5384417>

Outstanding amounts of credit to micro-enterprises (incl. sole proprietors), come from another data collection and are available at the following address: <http://webstat.banque-france.fr/fr/browse.do?node=5384934>

Non-financial corporations include all enterprises with as main activity the market production of goods and non-financial services, excluding sole proprietors.

Interest rates in this publication are those to new credits distributed by resident credit institutions to French non-financial corporations. The interest rates are effective rates in the narrow sense. They correspond to the interest component of the Annual Percentage Rate (TEG).
