

5 July 2017

The remuneration on bank deposits is almost unchanged in May

The average interest rate on bank deposits decreases very slightly in May (0.71%, down from 0.72% in April). This movement is observed on household deposits (0.95%, down from 0.96%) and on non-financial corporations deposits (0.38%, down from 0.39%). The most noticeable movements are observed on the term accounts, whose rates of remuneration decrease by 3 to 4 basis points depending on the terms for households, and by 2 basis points for non-financial corporations, whatever the term.
